SKILLS SUMMARY

- **Languages:** C, C++(Primary), Java, Python, SQL, HTML, Tailwind CSS, JavaScript
- **Frameworks:** React, Node, Express, MongoDB, Playwright, Socket.io, Artificial Intelligence, Machine Learning
- **Core CS:** OOP, OS, DBMS, CN, COA, SDLC, DAA, DSA, Microsoft Azure, Hadoop Ecosystem
- **Tools/Platforms:** MySQL, Github, Postman, Render, Cloudinary, DelightexEdu(VR), Microsoft 365
- **Soft Skills:** Leadership, Strong work Ethics, Persistent, Analytical Thinker, Time Management, Team Player

EDUCATION

- **National Institute of Technology(NIT) Srinagar** Jammu & Kashmir, India
B.Tech - Information Technology; CGPA: 7.4 August 2023 - July 2027*
- **VVM Inter College** Jahanabad, Fatehpur
High School : Percentage: 85.9% , Intermediate : Percentage: 82.4% August 2018 - May 2022

EXPERIENCE

- **IIT Mandi** On site
Researcher & Developer Dec 2025 - Feb 2026
 - : Led design of the experimental framework and narrative architecture across multiple storytelling conditions (text, audio, VR, robot-assisted).
 - : Developed immersive VR-based storytelling environments, customizing scenes, characters, interactions, and animations aligned to research hypotheses.
 - : Implemented web components using the MERN stack to support the digital infrastructure and experimental workflow.
- **Hackathon: Flipr GenAI Hackathon** Remote
Team Leader March 2022
 - **About:** Led a 4-member team to secure All India Rank 1 among 64+ competing teams nationwide.
 - **Project Course:** KR.AI (Autonomous Meeting Intelligence Agent): Built an AI-driven tool that converts unstructured meeting conversations into structured insights, action items, and summaries using GenAI and LLMs, Developed a Chrome Extension for real-time Zoom call capture, integrating with AssemblyAI for live transcription and RAG-based contextual memory.
 - **Tech stacks used:** React, Tailwind CSS, FastAPI, OpenAI, AssemblyAI, Open Router, Render, Vercel.

PROJECTS

- **Agentic AI Website Testing Platform (Full Stack):**
 - Addressed manual QA bottleneck by building an instruction-based test automation system — users describe flows in natural language instead of writing scripts.
 - Integrated Google Gemini to transform instructions into structured JSON test steps with validation and error handling.
 - Developed Playwright engine with retry logic, smart selectors, and step-wise screenshot capture for QA evidence.
 - Implemented real-time test monitoring via Socket.io — live logs and execution progress on React dashboard.
 - Designed MongoDB report system for step-level pass/fail status, errors, timestamps, and screenshot history.Tech: React, Tailwind CSS, Node.js, Express, MongoDB, Playwright, Google Gemini API, Socket.io, Axios, Sharp.
Use case: QA teams, startups, and developers who need fast smoke/regression testing without writing automation code for every flow.
- **Virtual Assistant Web App (Full stack):**
 - AI voice assistant with JWT authentication, custom prompt engineering for input sanitization, and session management.
 - Real-time speech-to-text & text-to-speech pipeline with Gemini AI API integration for intelligent conversational responses.
 - Designed structured JSON-based AI response protocol ensuring consistent and machine-readable outputs.Tech Stack : React, Node, MongoDB, Express, Tailwind, JS, JWT, Gemini API, Web Speech API, REST API.
- **RISC-V CPU Simulator:**
 - Designed a RISC-V CPU simulator with IF, ID, EX, MEM, WB stages, modeling complete instruction execution pipeline.
 - Developed an instruction parser supporting ADD, SUB, ADDI, LW, SW, and BEQ with label resolution and control flow.
 - Simulated register file, memory operations, and control flow with cycle-by-cycle execution tracking.Tech Stack: C++, STL.

ACHIEVEMENTS

- **Secured AIR-1:**
in Unstop Flipr Generative AI Hackathon among 64+ teams nationwide.
- **Secured Global Rank 1119:**
among 36.7k+ participants in LeetCode Weekly Contest 506.
- **Maintained 250+ Day Streak on LeetCode:**
demonstrating consistent problem-solving practice.
- **Selected for GSSoC 2025 & 2026:**
for open source contributions at national level.
- **Scored 99.1 Percentile in Mathematics:**
in JEE Mains.
